

National Finals of Code For Honor - Awards 2014

The Code for Honor 2014 finals are scheduled for 18th & 19th June 2014 in Bangalore. This is final stage of the competition, where the national finalists will compete to showcase a breakthrough software solution in their category.

A panel including illustrious personalities in the field of Information Technology will evaluate your final product and pick the winning solution for each award.

The finalists in the “**Best Solution for Social Good using Open Government Data**” category are:

- **Appface Technologies Pvt Ltd, Bangalore with “Mandi trades”** – a solution that aims to achieve direct selling of products between farmers and consumers.
- **Point 2 Point Solutions, Mumbai with “Let's Carpool”** - a solution for eco-friendly users, which suggests carpool options based on a user’s travel trends and offers incentive options to promote carpooling.
- **Greeno Tech Solutions, Chennai with “Rainbow”** - an information exchange platform to assist farmers to make informed decisions through the entire life cycle of a crop through info sharing among farmers.
